

FUTURE STARS COMBINE ATTENDEES

I want to thank each athlete, parent, coach, etc. who attended and/or helped get athletes to attend the 2022 Combines. As is always the case selecting the rosters is a tough job, we know some really good players were left off due to roster limits- as I told every single group the hardest thing about this event is “everyone can’t make it “; with over 400 athletes trying out statewide the roster spots have become “harder and harder” to earn each year.

To those who are not on the list, I know you are disappointed but don’t hold your head down. Don’t let this stop you from working extremely hard and having a successful football season this fall. If you are a 6th or 7th Grader work hard and we hope to see you again next spring. We had some kids who missed the selection last year that made it this year. If you’re going into high school get in the weight room this summer and work hard and shoot for a high school all-star game your senior year.

Remember, that in some cases kids that are known as a team’s best “player” may not make the team due to the position he tried out for where another teammate of his went out for a different position and was able to make it; it is based on positions tried out for! As we mentioned at each tryout, we make mistakes sometimes although not purposely, but it does happen.

We hope that every single person that attended had a good time, learned something and met some new friends. Have an awesome and productive summer and root for “Team Tennessee”.

Have a great and blessed day!

GO TENNESSEE!!
